A HOTEL IN HONOR OF
THE PATRON SAINT
OF MUSIC AND POETRY

Hotel Saint Cecilia is a 20-room secluded estate, once a historic 1880's home, located in Austin's South Congress district. With a blend of vintage and modern design elements inspired from the extraordinary writers, musicians and artists of the 1960s and 70s, the hotel has a soulful and serene ambience distinct to Saint Cecilia.

ROOM OFFERINGS

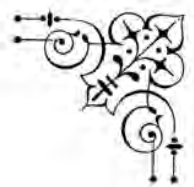

Both eclectic and elegant in design, Hotel Saint Cecilia's 20 striking accommodations are scattered throughout the estate - housed in both the Victorian era home and in modern additions - all with secluded entranceways. The design of each room is different, yet all of the suites, poolside bungalows, studios, and garden suites feature a cohesive combination of antiques, modern furniture and original artwork and outdoor lounge spaces. All rooms and suites offer King Hästens mattresses, Rega turntables and Geneva sound systems. Guests are invited to borrow from the hotel's lending library of vintage LPs as well as a collection of rock biographies and poetry anthologies from our favorite artists.
